

product description

A clear liquid wash- based on a high acid content to convert the rust on the surface to Iron-oxide. Contains strong emulsifiers to decrease at the same time.

Use Gloves and Glasses for protection

compatible surfaces

To be used as pre-treatment for all rusted surfaces, previously painted or unpainted.

surface preparation

Scrape away layers of rust and loose flaking paint.

Brush on the Rust-converter with a brush.

Leave to react for 5 min Rinse with clean water until soap free. Repeat if necessary.

Let dry – Remove loose particles and use steel wool or sandpaper to smoothen rusted pieces.

Repeat procedure until completely grey/brown

Apply your Base and Topcoats as recommended on the specification.
